## WHEN DINNER COMES.

One Ought to Have a Good Appetite.

A good appetite is the best sauce. It goes a long way toward helping in the digestive process, and that is absolutely essential to health and strength. Many persons have found that Grape-Nuts food is not only nourishing but is a great appetizer, and children like the taste of it and grow strong and rosy from its use.

It is especially the food to make a weak stomach strong and create an appetite for dinner.

"I am 57 years old," writes a Tenn. grandmother, "and have had a weak stomach from childhood. Grape-Nuts has been a great help to me in my diet. I enjoyed a reasonable degree of health, but never found anything to equal Grape-Nuts as a standard."

"When I have no appetite for breakfast and just eat to keep up my strength, I take 4 teaspoonfuls of Grape-Nuts with milk, and when dinner comes I am hungry. While I if I go without any breakfast I never feel like eating dinner. Grape-Nuts for breakfast seems to make a healthy appetite for dinner."

"My little grandson was sick with stomach trouble during the past summer. He was growing weak and thin. Now he is growing plump and well. When asked if he wants his nurse or Grape-Nuts, he brightens up and points to the cupboard. He was no trouble to wear at all—thanks to Grape-Nuts."

## CITIZENS RESPONDING WITH CLEAN-UP WORK.

City Carts Have Had Large Collections in All Sections This Week.

That the citizens generally have made response to the invitation to make this week a clean-up time is indicated by the experience of the street department in the collection of garbage and ashes as Street Commissioner E. C. Lillibridge says that there has been a notable increase in the amount of refuse that has been collected and that it has been in all parts of the city. An extra team and two men have been added to the department force all the week, supplementing to work of the regular crews in all sections of the city.

The special territory designated for Friday and Saturday for attention by collections of ashes by the city carts in the city proper (second trip), Jail Hill and vicinity on Friday, Greenville, Spalding street and other streets through to North Main street on Saturday.

Fire Chief Stanton and a number of the department men were busy all day Thursday investigating conditions in cellars about the business section of the city, cooperating with the City Beautiful committee in the general clean-up campaign being carried on this week. Chief Stanton reports that the condition of the premises where the automobile struck the Rathbone drug store window, but she did not see Desmarais. One of her knees was hurt, but she was not thrown out of the machine, and she was able to stand out herself, although a man who was helped her. A physician attended to the injury to her knee after she had been home that night.

This closed the testimony for the defense, and in rebuttal Attorney Desmond called Dr. W. K. Tingley to the stand. The doctor said he is surgeon and gynecologist at the Backus hospital and has been connected with the hospital from the beginning.

The doctor said that Desmarais had ever talked with him about the accident, answering that the injured man had done so.

Attorney Desmond asked the doctor what Desmarais had said, Attorney Hull objected to an answer being given to this question, and Judge Greese sustained the objection. The doctor was asked what the quality of the catgut used at the hospital was and he answered A-1, and that they were proud of it. Attorney Hull objected to the last statement about being proud of it, and the court ruled that the pride could be left out.

The doctor rested at 3.55 and Attorney Desmond opened the arguments at 3.59, after Major Hull said he had some requests to charge to present, but they were not ready yet as he had not anticipated that the arguments would be reached on Thursday. The judge told him that he would endeavor to get the fair consideration if Major Hull would prepare them and hand them in later.

A special despatch to the New York Times this week from Summit, N. J., showed how the women of the street had taken the initiative in a clean-up movement. It said:

Finding that there are no funds provided for the cleaning of the streets, the Park and Street Committee of the Woman's Town and Improvement Association announced today that it would undertake the work for the summer.

A notice was sent to every property owner in Summit today calling attention to the proposed activities of the women and asking cooperation. The notice stated that work would begin on May 28 when a wagon would make the rounds of the city's streets to collect dirt and refuse.

The woman explained that the plan is only a trial and suggests that if the men are unable to assist financially they should assist physically. She showed that civic pride in Summit is not confined to its women.
